

Kirklees E-safety notice

For Your Information

Merseyside Police – High Tech Crime Unit have put out a warning to all schools within their area regarding a music app called: **Musical.ly**. The app itself is harmless and is currently being used by around 6 million people worldwide.

It is a free app that allows young people to create their own music videos, however intelligence has discovered that a paedophile group are currently operating on this site and targeting young people.

Advice is for professionals, parents and cares to be extra vigilant and monitor young people's use of the internet, mobile phone and social media. This message is also to raise awareness of this app.

Kind Regards
